DETAILED ACTION

1. This communication is in response to the amendment filed on 10/01/04.

Previous Office Action has been vacated.

Claims 1-16 are pending in this Office Action.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-11 and 16 are drawn to a method automatically updating non-image data at the first storage location with respect to the information, classified in class 707, subclass 203

II. Claims 12-15 are drawn to a software application running on a computer, classified in class 717, subclass 174.

The inventions are distinct, each from the other because of the following reasons:

Inventions in Groups I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention in Group I has separate utility such as a method automatically updating non-image data at the first storage location with respect to the information. See MPEP § 806.05(d). Invention in Group II has separate utility and requires a software application running on a computer.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purpose as indicated is proper.

Applicant are advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

The response time for such action is one month (30 days).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
